## *Foundation of Indigenous American of Anasazi Heritage Message to the People by RaDine America*

We at FIAAH for over 12 years have experience the grace and wonderful life benefits from using our innate Earth consciousness living in our indigenous blood. We have worked diligently to develop infrastructure needed for the people with the consciousness of Earth in their blood to quickly slow down their demise and help those of us who choose to regain their ability to fulfill their life purpose and experience the wealth of joy and prosperity life from Earth has for their lives.

Directed by the power of Consciousness within us our focus is on developing solutions to break the shackles placed upon our conscious intellect from harmful artificial perceptions, used to keep indigenous people from developing into their full Earth conscious power and live free from the persecutions of the Ego as a result from not using their conscious correctly... F.I.A.A.H. goals always are focused towards uncovering the erroneous perceptions perpetuated to our people as a weapon to guide our people to mis use our remaining life energy power in directions that remove us from our alignment with the Earth conscious of reality.....

The American Heritage Registry is one of the tools developed for indigenous Americans aka Negro people to recognize their powerful connection to the Earth of America, collectively record our people still living with the Earths conscious blood in America, and remove the artificial cloak of invisibility used by the United States for collective extermination....

The Institute for Indigenous American Studies was established to teach our people the awareness they need to have to break free from colonial programming, expand their consciousness awareness and grow into planetary beings for the consciousness of our planet Earth..

FIAAH is graced from Earth to acquiring to locations in the Americas for our people to heal ourselves and learn the skills for consciously living as self reliant people .

All to often we have witnesses the weakness on our people consciousness when challenged to take action using their consciousness to allow inner strength to grow. To many of us have settled to live our lives thru the artificial perceptions of our ego . As a result we find their will is to crippled by the artificial perceptions of the Ego to confront the challenges of fear before them. The consequences from fear of conscious action weaken their will to overcome their fear, they find themselves stuck in a spiral of life deterioration leading to a painful and depilating death...

The outcome of Death to our people from killing the Earth conscious inn our blood does not have to happen. We all have the will to make a positive change and face our fear to stand for life over death. Our people will have to fight their fear of life if they are to get back connected to our Earth conscious will before they lose their ability to use the power of will from their organs leaving them stuck in death with artificial life..... Many people have graduated and completed their eligibility requirements to be registered in the American Heritage Registry. People who have completed their registration have witness the powerful positive effects to their lives from simply allowing their awareness to grow into alignment with our Earth conscious reality. People quickly find their awareness of the reality around them starts to reveal itself .

However this is just the beginning, it is a very small step in the process of releasing yourself from the shackles of artificial perceptions. In order to completely move out the box, one must have knowledge of all perceptions created to support artificial perceptions if one is to embrace their life powerfully. It is said

“Peoples who do not understand their past are destined to repeat it”

What does this mean? People who do not gain knowledge from the mistakes of their collective perceptions and misuse of life consciousness will relive the reality of the past with its compounded consequences.

Every year FIAAH offers Courses to all of the registrants in the American Heritage Registry. These continuation education courses are a requirement to further expand our Earth consciousness with knowledge of what and how the past was implemented upon us, and for building competency in our people for Common( Earth) Sense along with our ability to have the self reliant skills needed to return to living using our Earth consciousness power innate within us.

The continuation of Conscious knowledge development is required in order for us as indigenous people's living under captivity to regain our ability to fight the victimization of our lives resulting from artificial Perceptions of integration and security as equal citizens to the United States and change back to Earth or Natural Conscious perceptions of our life as belonging to America

Aquechewa Everyone,  
Summer is almost over. Time is running

out for our kinfolk to return to home base at Yumwija to commune with our section of Earth.

Our Indigenous Living Summit week was a blast. The Earth gave us a abundance of water and beauty. The Earth fed us like children with liquid life to feed our inner consciousness, rejuvenate our organs, and re energize our soul.

When we came back into the artificial society we was delightfully surprised with learning of the Ferguson protests, seeing our people standing up for their right to live.

I am proud of the Ferguson community and all of the other communities rising out in protest to the societal apartheid attitudes behind laws to hunt us down and the extermination camps( farms) we are being conditioned to live in as indigenous dependents on the United States. aka “blacks” The protest has sparked the discussion about our position as a people living within the United States. From listening to these discussions about the history of the United States toward our people is clear.

**We are not equals nor are we rightful citizens to this country.**

The United States is our master We are their captives of America., Whether we like it or not, we are living under civil apartheid (- segregation) we are no different than the Palestinians being bomb from their homes as a means of keeping them from being able to stand for their fundamental and political rights to govern their home on Earth from Israel.,

**“Collectively we are being bomb too from our homes and communities, the bombs on our homes was the Housing market crash and illegal foreclosure aimed at removal of us from our communities. “**

We lost over 10 million indigenous Americans homes since 2007 and another 3 million lost their homes from 2000 – 2007. Displacing a untold number of communities...

The United States is still at war with Indigenous Americans aka black “Americans” and our hybrids people of color. We are being civically bombed as the form of warfare the United States is using against us as their means for exterminating us from our home of Earth in America.

We are constantly under attack from all their arsenal of civil weapons being used against us . le economics, prisons, discrimination.. US media constantly reports to the United States real citizens their progress made against our collective survival in America. Examples of our plight is in the press everyday..

**Debtors Prisons**

**As economy flails, debtors' prisons thrive**

**Roughly a third of U.S. states today jail people for not paying off their debts, from court-related fines and fees to credit card and car loans, according to the American Civil Liberties Union**

Some states apply "poverty penalties," such as late fees, payment plan fees and interest, when people are unable to pay

all their debts at once. Alabama charges a 30 percent collection fee, for instance, while Florida allows private debt collectors to add a 40 percent surcharge on the original debt. Some Florida counties also use so-called collection courts, where debtors can be jailed but have no right to a public defender. In North Carolina, people are charged for using a public defender, so poor defendants who can't afford such costs may be forced to forgo legal counsel.

The high rates of unemployment and government fiscal shortfalls that followed the housing crash have increased the use of debtors' prisons, as states look for ways to replenish their coffers. Said Chettiar,

**25 Facts About The Fall Of Detroit That Will Leave You Shaking Your Head**

<http://www.zerohedge.com/news/2013-07-21/25-facts-about-fall-detroit-will-leave-you-shaking-your-head>

All states in the United States have laws protecting the citizens of the United States by their police of their right to kill a indigenous person aka black on site for any reason “ as a threat” All police see our people as a terrorist threat aka Indians, regardless of how we change our indigenous identity to immigrant names as African American. To the United States we are still Indians therefore giving non Indians the right to kill us on site..

The perception towards us as being animals or lazy descendants of the Earth has been the foreigner attitude since the discovery of our section of Earth. On CNN and Democracy NOW 8/20-8/22 2014 shows mentioned the historical factoid “ In 1858 the Supreme Court declared Negroes and Indians were not created equal to white men , therefore do not have protection of the United States constitution Using their arsenal of political / civil warfare of education/ assimilation, economics , law, and societal discrimination as tools to keep turning our communities collectively into concentration camps as ghettos, while using their bias laws to keep our young adults in labor camps as prisons has kept our females working in their plantation fields of corporations for their service as jobs.. while national media continues to stigmatize them as inferior females as a way of keeping them from being able to continue the development of human conscious in their future generations for their home from Earth...

. Everyone born from Indigenous Heritage to America aka black females in America know the history and see the perception towards our people by the collective United States has not changed. The message to our people is always the same. “ Our entitlement from the United States is DEATH.” The only question from the United States is how to kill you. Peacefully non- violently or traditionally- violently?

Most of our people should be tired of the artificial perceptions from LIEs, attitudes, rationales for glorification of the death of ourselves in captivity being told to them to follow in life by our Educators, churches and supported by our elders; so they can benefit from selling out their future generations inheritance of being free with protection to live long with liberty and peace from self reliance, self determination, creativity as Earth creators rather than Earth occupants in captivity... We are a." A modern day story of the planet of the Apes. It is our Planet, but there world....."

Over generations of following people hiding for personal benefits from the truth about our dilemma posed from foreigners invading our Earth and adopting lies and false perceptions about ourselves in relationship to foreigners destroying our Earth.... We have allowed the foreigners to build( manifest) themselves a country on our home for Earth. Foreigners have collectively built systems for trade that has killed the life support system indigenous Americans aka blacks need from America to live, grow consciously, and prosper on our Earth.

The questions everyone should be asking is: where is your entitlement right to life and liberty ?

Where does it come from ?

Why aren't we being recognized to our entitlement to Life and Liberty?"

Why are we being told to passively accept our death and stand down!!!!

What are we doing WRONG!!!!

What did life give us to do to stop being rob of it?"

Where is our collective resolve to live.

. How can we live secure with out fear?...

### Let's answer these questions?

**1. Where is our entitlement right to life, and liberty?** Our place of entitlement is America.

**2. Where does it come from?** All indigenous people on the Earth entitlements come from the Earth section they belong to by the blood inherited from their mother... All people are responsible to maintain their ability to keep their life, liberty, self determination on their section of Earth..? The United States is a foreign establish government of occupation of America with foreign people therefore the United States does not owe indigenous Americans Life and liberty. You already have the inheritance of life and liberty of America, it is there job to take it away from You. if you are not willing to stand for it... then they will rob you of your life and liberty to govern America...

**3. Why aren't we being honored with them?** Indigenous Americans aka black People have for the last 500 years have abandoned their Earth response ability to America for adoption of an artificial dream for living for acquiring material riches from the enslavement and selling of our heritage inheritance to America,( females children and Earth wealth.

**4. Why are we being told to passively accept our death and stand down!!!!** . We have become a People who do not serve their purpose or have value for life to America on Earth therefore if we are to live by artificial perceptions of Patriarchy we forfeited our protection power ability from Life with Earth...

**5. What are we doing WRONG!!!!** We our living our lives thru the wrong perception of individualism or disconnection instead of connection as unity " OUR PERCEPTION" is backward towards our lives..... we must learn how to use our response ability given to us for protection of our lives from Earth....

**6. What do we have to do to have them?** We must return to indigenous Conscientious of our Ancestors . instead of individualism and self centeredness as our life priority. We must put Earth life first as our consciousness of equality for female and male in unity creating the consciousness of the people for America.

**7. What did life with Earth give us to do to stop being rob of our gifts from Life with Earth?** All indigenous people were give the power from taking responsibility to adhering to the covenant for keep and protecting Life and Nature of America as a part of Earth. As long as we stand for life on Earth. the power of Earth will always work in our favor. Life trumps death..

**8. Where is our resolve to keep our life with Earth? The honest truth- We collectively don't have one.** We are taught that we can forfeit / abandoned our Earth life covenant responsibility to support and protect life of America with our planet Earth, and use/ trash our personal life for self centered ideals for the consequence of unknown glory in Death promoted.. by our Churches. Example: A person. being Saved means: Saved from doing your work production in life for sustaining life with Earth... because life was not what we imagined it should be, so as a person they will now abandoned their life responsibility, and place it on a dead man named Jesus.

**What do we have to change ?** Stop coping out on facing Life challenges . Stop thinking selfishly ,change our Consciousness from individual to collective. Become our planets Earth stewards again..

**How can we live peacefully without fear?** When our consciousness returns to being heterogeneous ( unity of the female and male) we harness the power of Earth itself living within our blood. We again will be in the flow of Earth creative reality, developing our own self reliance with Earth, not mans individualism and the artificial ideals that mis direct all the life energy needed to experience life growth prosperity and joy. Unfortunately Life support from Earth is running out and there is not enough going to be enough food for everybody. Most people are finding they are living in "food Deserts" Soon our collective situation will be so bad we will be no different than the growing global population of people living in abject poverty. For many of us our we are already living there .

## **Living in Indigenous Consciousness Will Save our ability to live again!!**

Most of us are still trying to out smart life itself by doing and giving back what we want to do , instead of doing and learning what we need to do. Thinking we can abandon/ cheat our part to support life and cheat the consequences of dis-illusion, emotional pain leading to perpetual physical suffering, until the forced releasing of life into death.

**Why? because we believe Jesus will make life give us favor when we ask for it. Life will make a way for us without consequences is bullshit.....**

NOW Life of Earth with our people is in serious jeopardy. People will not longer be able to live on both sides of the fence, and our young people do not have the choice , their life abilities for the most part have been robbed from them. Our indigenous heritage comes with a consciousness of response ability or Ability to respond and we must all learn, respect, and value it if we are to continue to receive Life support and

protection from its powerful benefits including international law protection...

Response ability to your indigenous heritage is more than having a piece of paper that states you are INDIGENOUS- it is the actions taken with this position. The paper is our symbolic declaration of our truth in manifest form Meaning are standing with the consciousness of our truth as a part of the larger perception of Earth, we understand our function as a integral part of the system of life with Earth. The conscious of our inherited fundamental purpose to and with life of Earth is more powerful than any artificial illusion of power generated by the manifestations of **foreigners** living on our section of Earth. The simple knowing and developing of ourselves in our truth and developing our consciousness back to reality of life stops the aggression against us and their weapons WILL stand down.

## ***The Solutions - Our plan***

***OUR solutions are quick and everyone following indigenous consciousness can make steps to become a indigenous living person.. We all must work together. Now, I am not going to dwell in all the doomsday stuff, however, I am clear what has to be collectively done so we don't have to e victims of the old world.. So please read completely. Everybody Please remember***

***"As long as we build life with Earth. The power of Earth as life is with US!!!!!"***

**WE are the creations of the Earth- All solutions to our collective condition of struggle and strife will come from recognizing this truth and using pro activity. America is Our power base connection from Earth. It time to restore it. America needs us now!! As Long as we build life for OUR Earth section as America, the power from the Earth with America is with our people, WE the children of America by BLOOD Heritage of our Mothers aka Blacks hold the KEY!!!!, we are not foreigners. ## **Sacred Words- Using our voice (correctly)**

by RaDine America Harrison-Pitts

I though I would include the prayer and affirmation again in this news letter .We must return/ learn to think with our **Earth** power, **ALL** things eternal and physical are created **through** the power of the Earth . When we support the viability of **Life of Our Earth, Life** supports us.

### **Please read carefully:**

**Everyone** should start building their Earth power. How? Everyone must return their allegiance back towards being a part of the nature with Life of Earth. While doing the allegiance **dance, use** the chants of "**Aquechewa, Aquecheway, Aquechewa, Aquechewa**". I find it works like a rocket, raise your left arm above your head while moving your arm in a circle, as if you are in a rodeo..

### **Awaking to our inner power Realizing the Earth power inside us,**

Many of us are feeling the bottom of our feet and the palms of our hands tingling, thru using the affirmations, if you are using the affirmation you should be seeing positive change in your being able to release fear of change. Some of us have started to break the shackles of fear to disconnect from the artificial world from the loss of jobs, and are finding out the power we have from life creates opportunities for us to build and be productive ,when we let go of our Ego need to control and follow the flow life is leading us to.

Below is a prayer and the Earth Affirmation of power. Share the affirmations with our people help them connect, the more you help our people become aware of their natural conscious, the more power unites with you. The Book of Indigenous Psalms is available online. Please Note: You only receive from what you actually do,do nothing, get nothing, do once receive once.

### **The Indigenous 23<sup>rd</sup> Psalms is as follows:**

*The Life consciousness of Earth is my Sheppard, I shall not want.*

*It leadeth me to lie down in green pastures.*

*It leadeth me beside the still waters.*

*The Life consciousness of Earth restoreth my soul. It leadeth me in the paths of Earth consciousness.*

*Yea, I walk through the valley of the shadow of death, I will fear no evil.*

*For the power of Earth art with me, thy sprit and thy nature comfort me.*

*Thou preparest a table before me in the presence of mine enemies, thou anointest my head with oil; my cup runneth over.*

*Surley goodness and mercy shall follow me all the days of my life, and I will dwell in my home on Earth forever.*

Hal-le-lu-yah, ye-ho-wah, Hal-le-lu yah, ye-ho-wah, Hal-le-lu-yah, ye-ho-wah

### **The Allegiance to Earth as follows: Say while in movement/dance**

*My Allegiance is to the Earth.*

*I respect the Nature of Earth within Me.*

*I value the Life from Nature shared with me.*

*The joy for Life flows through me.*

*The power from Earth as Nature surrounds me.*

*The force of Nature as life sustains me.*

*The principles for life as Nature protects me.*

***My Allegiance is to Earth and to the Covenants of Nature for Life is why I stand.***

*And **alive fearless and free** I will remain.*

### **Does everybody have the same power from Earth?**

NO, the Earth gives every life form created by the Earth a place to connect, like a puzzle, if your piece don't fit the power won't click.

Now some kinds of species feel they can force the Earth to change to accommodate their ideal for the use of the Earth, well the emotions of Earth holds all the keys, it is often ignored the Earth is our host, we are not the Earths host, and what a gracious, loving host mother the Earth has been. .... I will have a private online **webanair check for current dates and times To explain 'Our Secret' Be there!!!** If you are not registered then you need to get REGISTERED!!!!

## Why is changing our Perceptions important?

Changing our perceptions allows us to change our Karma or outcome from operating in artificial perceptions.

Aligning our perceptions with conscious reality also allows consequences to happen to those who exploit our life power, and destroy the nature of life on Earth.

Entities who participate in the destruction of all life species on Earth will no longer be able to take our lives without direct an immediate consequences to their ability to live on Earth..  
Game is over.

Too many of us prefer to live our lives thru the artificial perceptions used to support the Ego. When we return to Conscious knowledge we can release the artificial perceptions of our ego and receive the power of conscious reality dwelling in our heart in our lives now and into the future.

Unfortunately our people who do not chose to change from artificial perceptions back to perceptions that align them with their purpose and service to our Earth live their life on the side lines of life. They live without the inner protection of conscious reality as a result live a life of, Sickness, isolation, loneliness and fear while losing their ability to implement free will, ( becoming handicapped). As a result, completely missing the reward of experiencing peace, security and joy from life with Earth .Right now, Earth is in the cycle of renewal, meaning it is changing back to it original nature Example( think of a pendulum and the pendulum has tipped to the extreme left,

which causes the pendulum to start to return back to the middle). As the Earth returns back to its center, Life with Earth will relive the sequences that brought the Earth out of balance. This process will bring our collective back to the past. As we return to the sequences of the past again , we are given an opportunity to correct our perceptions from the past and take corrective actions that will return us to being a viable part of our planets consciousness for its life and future.

Whether we like it or not the time for change is here and the time to change is now.

Most of us who have had the opportunity to become aware of our indigenous blood inheritance can attest to how advanced we are over most of our people who lack our basic indigenous knowledge. Everyone with basic indigenous knowledge will be call upon to be a beacon for Life to the people indigenous to America around us, who have no perceptual awareness of the secret in their blood, who are lost and is seeking perceptual change for a connection back to understand why and what is happening in their life.

“ Letting go of Artificial ideals and perceptions about Life, means letting go of the way you have been conditioned to think.” Breaking from information.

Example: Many people lock their houses , lock their cars and live in houses with bars around them. As a result these people are people who live in cages. As a result they always live in fear of being free or outside of the box. They fear that something is going to be taken away from them so they attract people who feel something **has been taken** from them as a result their boxes are always being broken into as life's way to set them free.

Many of us are holding on to idealistic perceptions of how we will create a personal world to live in While Ignoring our responsibility to our life blood as a part of a bigger perception of Life of Earth .

When we replace artificial idealistic perceptions with Conscious perceptual knowledge, we understand the MIS-creation of the past, giving us the power to recognize the actions need to be taken to stop it from being a part of our DEstruction of our future with OUR Planet and embrace the life power given to us from our blood from our mothers with the planet Earth as the way that allows life to create solutions for the challenges against our life with Earth and fulfill our ultimate hearts desires in a joyful healthy way.

## Where is the Earth Pendulum Today?

As I have said on many occasions the time will come when the United States will attack our people by slowly removing all of our artificial life supports connected to their systems: leaving very few of our population of peoples with the ability to support their lives from the artificial perceptions to privileges of entitlements allowed to them by the United States.

One of Harry Belafonte last conversations with Dr. Martin L. King. Dr. King dealt with issue, wondering whether he was integrating his people into a burning house. So Harry asked him "what should we do" Dr. King answered "We become fireman."

Well the day has come and the building is burning our end is quickly arriving. Where are the fireman?. Indigenous conscious people will be the fireman to lead the way to save those who chose life over death and change. We will help them save themselves by directing people to learn how to live with life of Earth as indigenous people to America and become aware of the conscious power in the blood in their veins that Earth is directly connected too.

Often times people are looking for a handout someone to save them without changing their childish Perceptions. They will find that this is not how real perceptions works. Most of us are still living under the artificial perceptions from integration, such as: we are equal in a society that is still using collective systems of genocide against us, especially our mothers.

Many of our people ignore the changes that are affecting each other as if they will not be affected by them. As a result, Many of us are ignoring our responsibility to help build another support system, and are operating selfishly using the knowledge against others; and finding excuses to escape from exposing the artificial perceptions that are keeping our Youth from reacting to seeing and smelling the smoke above and around us telling us our lives are in great danger, there is fire burning around us.

When the truth is it is only a matter of months at best; a couple of years before the burning building will be completely effect all indigenous blooded people in captivity who have been living in the artificial perceptions promoted by the people who support the ideals of the United States to our people.

Those of us who fail to learn how to change there thinking in time will perish in dehumanizing ways. Cancer is one them.

If our people are to come out of this burning building alive with a quality of Life to live, they will have to change and face their

challenges and fears. Many of us are ignoring our responsibility to help build another support system.

People with indigenous consciousness should give as many people as possible the choice to regain their indigenous conscious to save their lives. We are the fireman. We are the Solution

In this regard- there are many small actions one can take to help save life so life can help save you.

Here are some points to consider. Without the majority of our people returning to building the EARTH Consciousness in our blood, we will not have enough power to avert our total destruction There is about 42 million of us left in the United States alone.

With that said, everyone should be sharing the fact we are indigenous to America WE ARE THE direct DECENDANTS OF THE females creating the Negro People, they are the people of America, we are a part of the blood (DNA)of the Earth with every one of our brothers and sisters. Many people will give excuses for not moving forward, leave them there, watch how they perish, however there are millions of our sister and brothers who are serious about saving their lives before it is too late to change, they will do what is necessary to get the knowledge to save their life blood...

"Knowledge is power ignorance as believe is powerlessness" those who are serious, life will make a way for them People who hold on to their old perceptions of ideals for selfishness life will not.

Pain, suffering, isolation, and the simple fact no one was put here to take care of people who chose not to take care of their life purpose themselves.

This simple perception will be realized and those worthy of having a joyful experience in life will seek to learn how to correct their perceptions and learn the skills for implementing them correctly.. There is enough people for all of us to help to return to Earth consciousness, Every time you share the opportunity to help save someone's life this way. Life opens an opportunity for you to receive your needs to be met and receive an abundance of your desires. After a while you will realize you have to be careful of what you ask for.

Now that you know what is at stake and how you can make a difference. It is time we learn how to consciously defend ourselves by learning the skills needed to implement the consciousness, but unfortunately, not enough people with the knowledge to teach us. In that regard F.I.A.A.H. is diligently working to bring the skills back to the children of our people

**WE ARE THE SOLUTION**

Learn the Heritage knowledge for your Conscious!!!

FIAAH is ready to implement the solution. Reclaim our home on Earth, Stand for our right to live on Our planet- So we can allow the power from Earth to work its magic thru us to change

and stop the artificial perceptions from Killing life for all of us  
and our planet.

# Community Building- Volunteering for \$ Dollars

We have some new ways of doing and building community:

## Creating our own Living

Our time sharing project -Being of service to each other for mutual exchange. Time sharing and volunteering here a Yumwija this summer will allow all those who want to be apart of our long term Indigenous living community here at Yumwija.

Many people have requested to stay here at Yumwija If times get very bad. We are willing to have our people who have helped thru volunteering to build a indigenous community @Yumwija. . If you do not have time to help create community, we will not support anyone in there time of need with one. Yumwija needs people to volunteer to help with all the events, office, gardens and building projects. In exchange for you service time or productivity , we will apply your service as payment forwards courses at the Institute, continuation education classes. As well as if you are here you always participate in any programs here going on @ Yumwija Why is volunteering important.?

Origins of the word Volunteer. By Kerry Davis

The word volunteer career started with the romans. The Latin voluntaries meaning "of one's free will" was coined around 1600.

The attitude towards volunteering in our black American community takes on a whole new meaning. One of the reasons the communities in which we live are so emaciated, is because the people who live in them seldom share their free will with themselves and neighbors. Could it be that we have lost our "will" to move forward? Do we even have a will anymore? Volunteering has a meaningful, positive impact towards building community. Here are some reasons to change your attitude and become a volunteer

**Learn or develop a new skills Boost your career options  
Motivation and sense of achievement**

**New interests and creative ability**

**New experiences**

**Expanded Meeting more like minded people**

If you look at the results of volunteering, it's really the amalgamation of energy to accomplish a task. Black Americans attitudes do not support their communities, instead we are taught "get paid", and the scraps that are paid, are used to buy items from foreigners we could very well produce for ourselves

. **Working with F.I.A.A.H.** The purpose of people working with FIAAH;

People who work with FIAAH become bridges to bring Life back to us and OUR home on Earth- America. Why is becoming a bridge to back to life important? Becoming a bridge back to life save your health and give you a life worth living and respecting.

Everyone at this time should reach out to as many people as possible and give them a chance to get connected to FIAAH and develop OUR Earth consciousness . Empowering other like ourselves empowers us. Every FIAAH member should/must start volunteering their time if not to FIAAH then some other organization that will help indigenous people in these precarious times.

The skills that you pick up could be helpful and useful later in life, plus they could be taught to others. Imagine the ideas that you will inherit

when your will is being done. The new year is among us let us utilize this energy that we our receiving to make some positive changes in our lives and on our Earth.

# America Heritage Preservation Trust

## *Getting out of Debt Slavery: Our Plan*

F.I.A.A.H. Earth recovery fund with the American Heritage Preservation Trust is developed to help get our people into stable life conditions.

**The American Heritage Preservation Trust Stewardship Initiative.** Is a function of the AHPT set up to acquire earth for the development of sustainable housing for indigenous registered members. The program will assist our community members in acquiring property without occurring long term debt. Once the requirements are completed the person will have a property that is debt free they will be required to maintain the county taxes on the property. Some of these homes may need to be fixed up. However they will be mortgage free.

**How does it work?** The American Heritage Stewardship initiative is a Real Estate investment consortium or REIT for indigenous people to invest our money collectively to buy real estate from tax liens and tax foreclosed homes for purchase by our investors. In return the investors can acquire a home mortgage free. The investment fund buys the properties allows the proprietors to process to clear title giving the investor time to acquire the remaining funds needed to complete the sale of the home and return the money back to the fund. All moneys invested into the fund by the investor is applied to what ever the cost was to the fund to acquire the property. Once the title is clear the investor receives the home. If the investor does not have all the funds to complete the transfer of property ownership from the Fund. The investor can make payments to the fund. Unlike common investments our REIT will pay all of the profits with the shareholders as investors in the form of Quarterly dividend payments. It is a win win program. Many of our people need to get out of the cities, the fund will allow us to get people relocated into affordable home without the long term debt that has kept us enslaved

**What are the requirements?** The requirements are a person must be registered with FIAAH. A minimum investment of 250.00. the more you invest the more you get out. Investors looking for housing should continue to invest to help insure funding is available for house investment purchase

Everyone can help. We are registering the fund through PayPal. Everybody can get involved. To find more info call the office at 304-212-2362.
